

## What is it?

Learn 360 is a video streaming subscription service provided by ESD 105 for consortium schools. In addition to video, Learn 360 has a variety of other assets. These include an image library, articles from Encyclopedia Britannica, interactive modules for science, math, reading and social studies, and audio books for younger grades.

## Who's it for?

Students Pre K-12

## How do I find what I need?

Keyword Search: Search for a topic or title through all multimedia assets

Browse by:

- Most Popular
- Recently Added

- Content Type
- Asset Type

## How can I use it?

- Share as an assignment to a classroom web page, LMS, Google Classroom or other platform for a flipped, or blended learning experience for students
- Customize a segment or portion of video to be shown in class
- Assign interactive labs, reading passages, games for in class and out of class use
- Encourage active viewing and listening with interactive transcripts of videos
- Use the calendar search feature as occasional entry tasks
- Every video aligned with Washington State Standards
- Access select video channels from the web without comments or advertisements
